WALEED TECHNICAL & PROFESSIONAL SKILLS TRAINING CENTER

Corporate Profile

Strategic Training.
Measurable Impact.
Trusted Partnership.

EXECUTIVE OVERVIEW

Your Strategic Training Partner in the UAE

WALEED Technical & Professional Skills Training Center is a high-performance training institution operating in the United Arab Emirates, delivering specialized programs in Health, Safety & Environment (HSE), workforce development, and operational excellence.

We position ourselves as a strategic partner to organizations seeking measurable improvement in safety performance, regulatory compliance, and workforce capability. Our principle: Training must produce results — not attendance.

DR. WALEED ALMEHAIRBI CHAIRMAN

26 Years of Executive Leadership & Field Expertise

His leadership philosophy is centered on accountability, precision, and measurable outcomes. Dr. Waleed is recognized for translating regulatory requirements into practical execution, aligning training with operational challenges, and building sustainable systems that reduce risk.

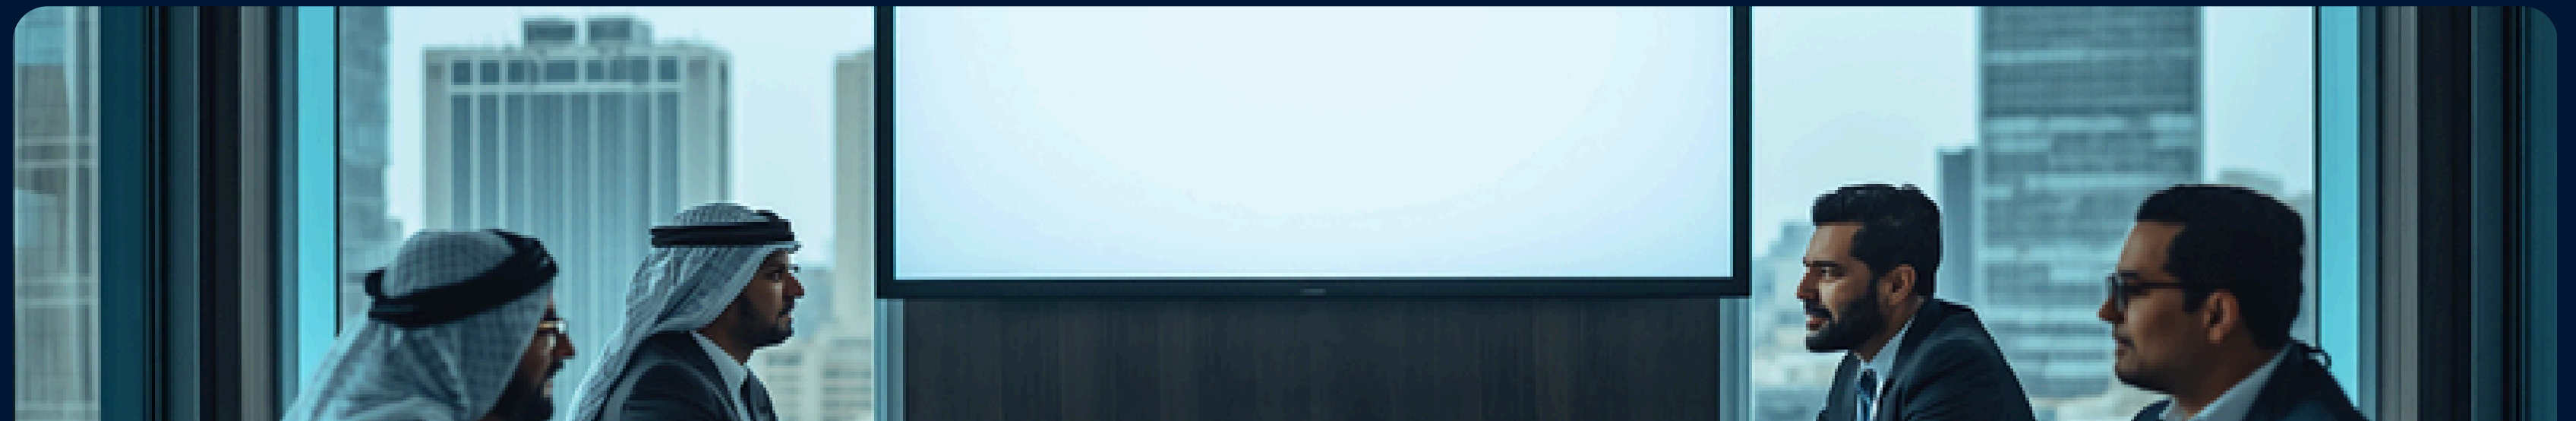

CHAIRMAN'S MESSAGE

Performance, Compliance & Results

In today's environment, organizations are judged by performance, compliance, and results. At WALEED Training Center, safety is not a checkbox — it is a system, a culture, and a leadership responsibility.

Training Solutions That Deliver Impact

We design training that directly addresses workplace risks, operational inefficiencies, compliance gaps, and human performance challenges. We partner with organizations serious about improvement.

Our Commitment to Excellence

STRATEGIC OBJECTIVES

Safety Culture & Incident Reduction

Strengthen safety culture across organizations and reduce incident frequency and operational disruptions through targeted training interventions.

Regulatory Compliance

Ensure full compliance with UAE regulatory frameworks and international standards, protecting organizations from risk exposure and violations.

Workforce Competency

Enhance workforce competency and accountability, ensuring employees are fully capable of performing under real conditions and managing risks.

ROI & Operational Excellence

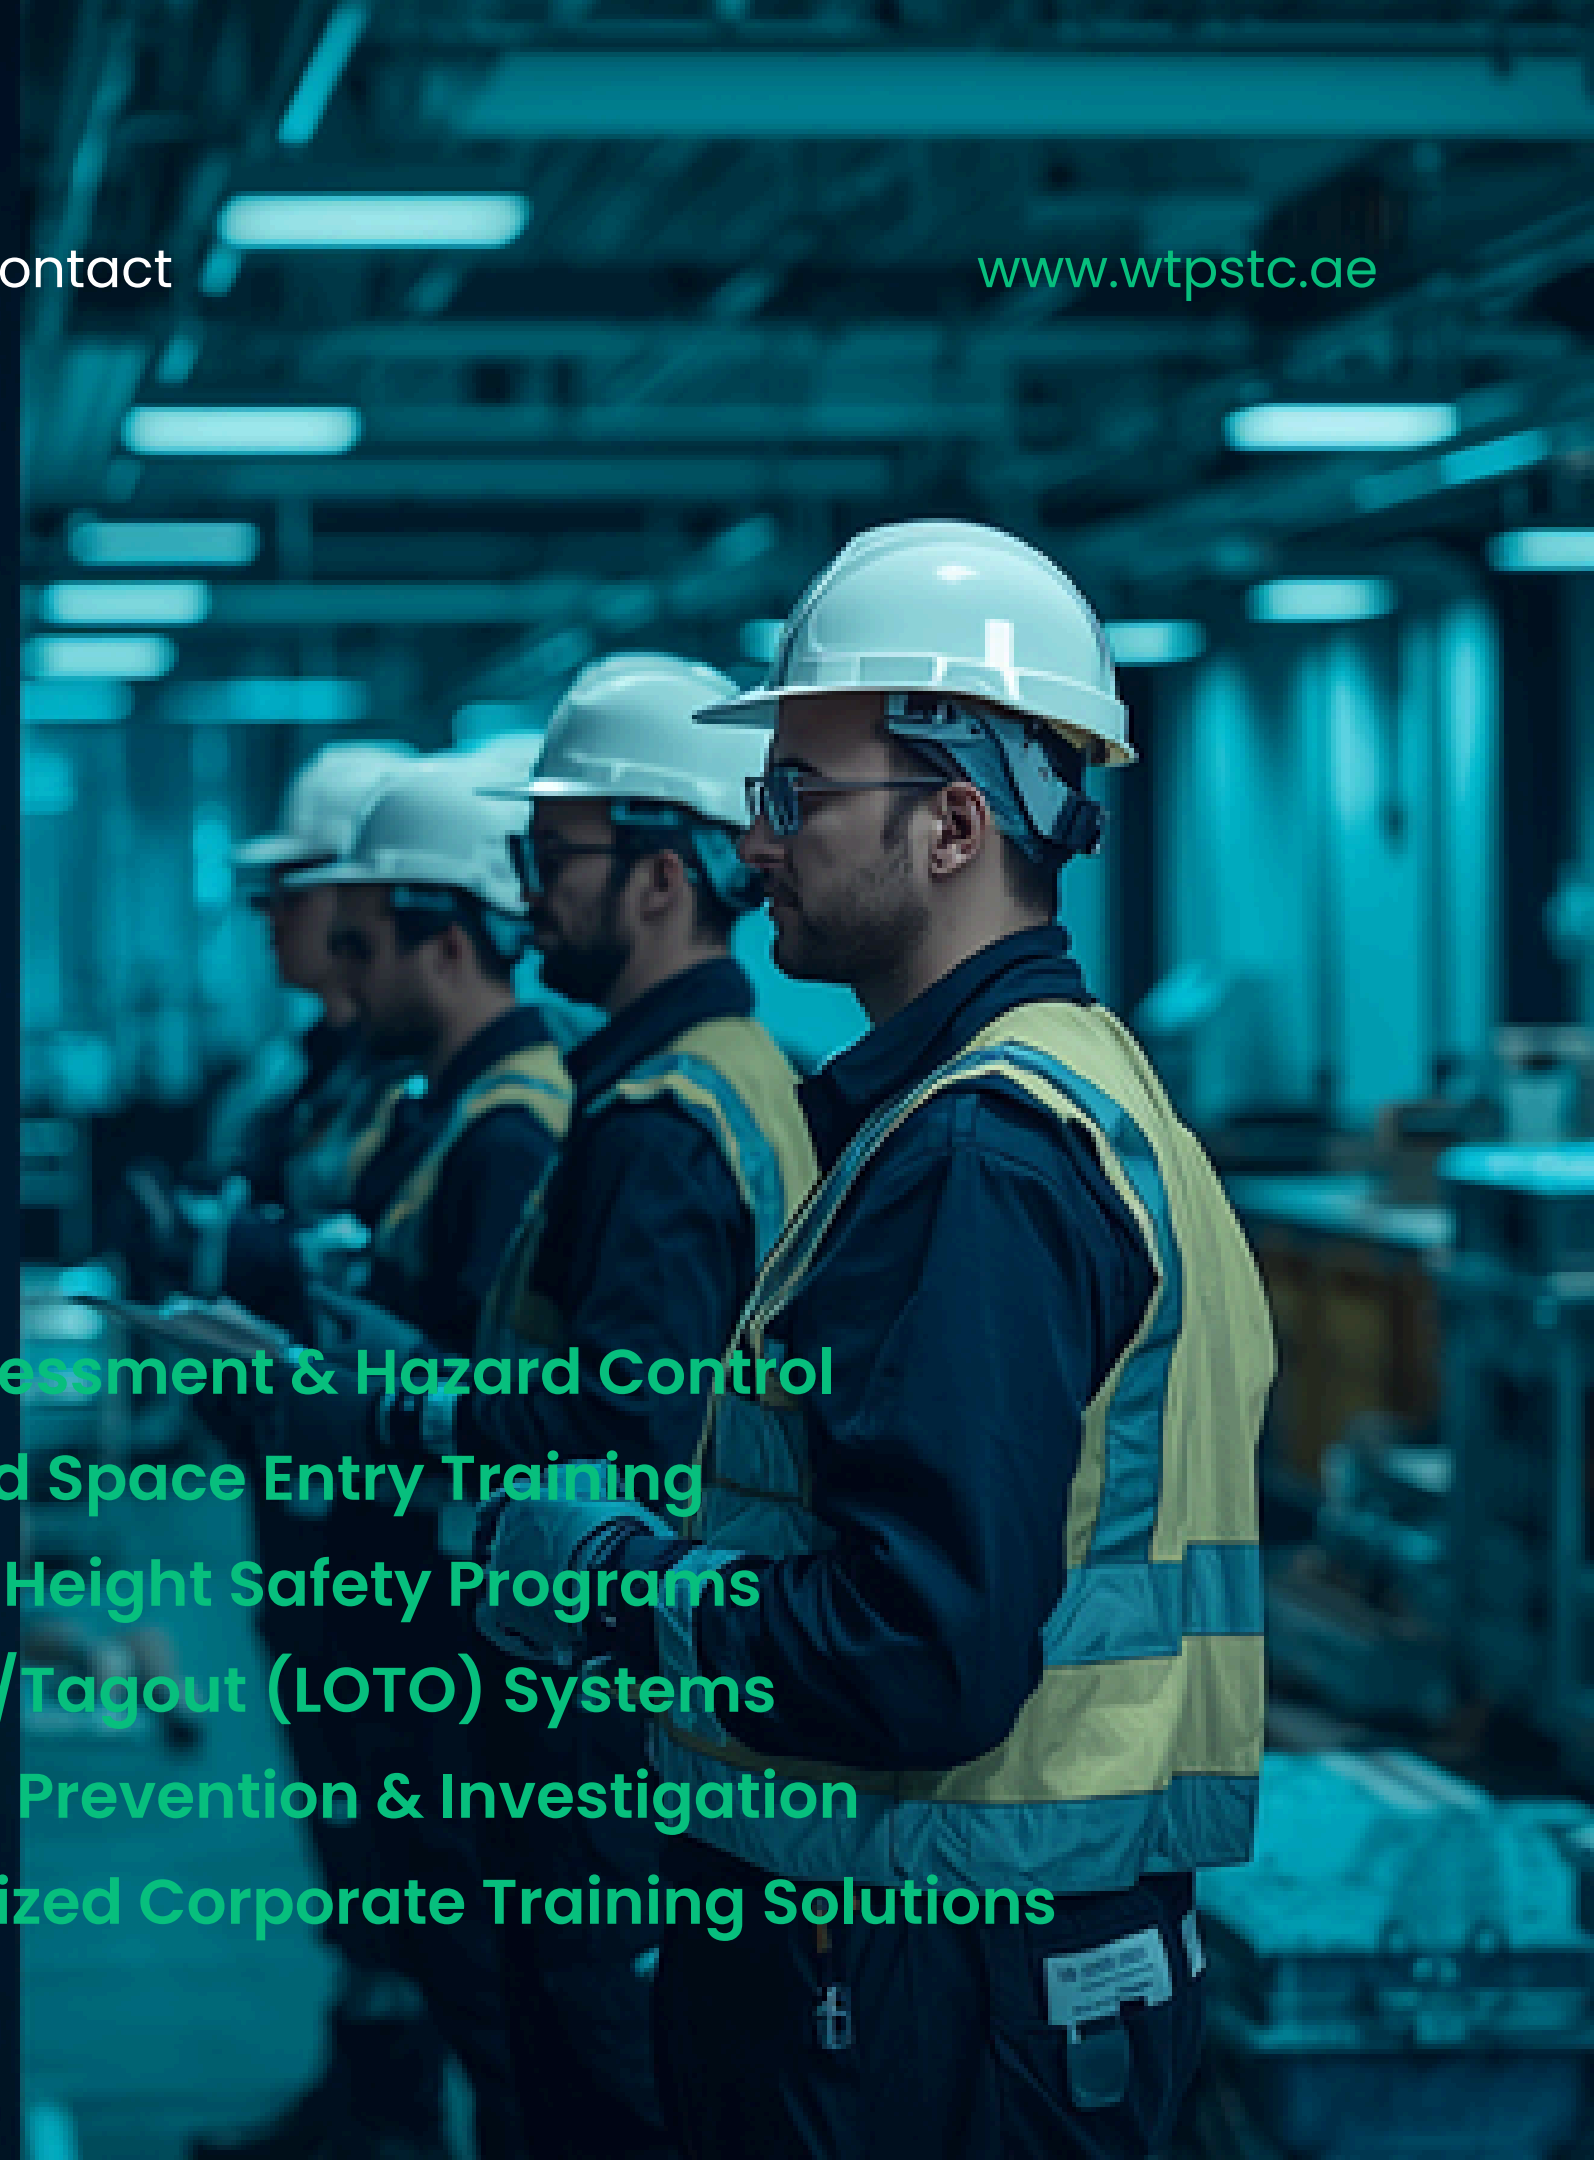

Deliver measurable return on training investment and support leadership in achieving operational excellence through results-driven programs.

CORE SERVICES

TRAINING METHODOLOGY

What Makes Us Different

Our methodology is designed for execution, not theory:

- Scenario-based learning aligned with real work environments
- Practical simulations and hands-on application
- Industry-specific case studies and performance-based evaluation
- Measurable outcomes and post-training impact assessment

Specialized Sector Expertise

INDUSTRIES WE SUPPORT

Construction & Infrastructure

Comprehensive safety training for high-risk construction environments, including work at height, confined spaces, and site safety management protocols.

Industrial & Manufacturing

Targeted training solutions for production facilities covering LOTO systems, machine safety, and operational risk management.

Oil & Gas

Specialized HSE programs designed for upstream, downstream, and petrochemical operations with focus on hazard control and emergency response.

Government & Corporate Enterprises

Customized programs for government entities, facilities management, and corporate organizations focused on compliance and workforce capability.

PROVEN IMPACT

We don't deliver generic programs – we deliver targeted solutions that produce results.

Our programs have contributed to improved compliance across multiple organizations, reduction in workplace incidents and safety violations, enhanced workforce readiness and response capability, and stronger alignment between training and operational goals.
